Grid and capital sensitivity; requested grids are not all nested
Amount payoff across funding caps
Scenario amount contribution / 1,000 (million source units)
Validation funding cap / requested capital
lightgbm, grid 256
lightgbm, grid 513
lightgbm, grid 1025
tabm, grid 256
tabm, grid 513
tabm, grid 1025
Test fairness after frozen validation choices
Test absolute FRR gap (pp)
Validation funding cap / requested capital
